IMIS - The Integrated Marine Information System - biedt informatie over datasets, publicaties, personen en instellingen die gerelateerd zijn aan marine wetenschappen uitgevoerd in Vlaanderen en binnen projecten waarvan Vlaamse instituten deelnemen.

Special collections worden gedefinieerd binnen IMIS, zodat het systeem kan worden ingezet binnen nationale en internationale projecten, evenals binnen instituten, ter ondersteuning van hun eigen informatiemanagement voor datasets, publicaties, personen en instituten.

Alle gegevens in IMIS vallen onder het VLIZ [Privacybeleid](#).

# De onderzoeksvraag.

“Hoe kunnen de zoekresultaten van Google Scholar automatisch toegevoegd worden aan IMIS?”

- Hoe kunnen de uiteenlopende zoekresultaten van Google Scholar omgezet worden in gestructureerde data?
- Zijn alle zoekresultaten uniek identificeerbaar zodat er geen duplicaten opgeslagen worden?
- Hoe kunnen ook steeds nieuwe zoekresultaten van dezelfde zoekopdracht systematisch opgezocht worden?
- Kan er een score berekend worden hoe relevant elk zoekresultaat is ten opzichte van de zoekopdracht?
- Als er geen unieke identifier is, hoe wordt er dan gecontroleerd op duplicaten?
- Hoe blijft de tool overwegend onafhankelijk van third-party software?
- Hoe wordt er gegarandeerd dat de tool op de bestaande hardware kan draaien?
